BOOK SYNOPSIS

Advances in trauma care have accelerated over the past decade, spurred by the significant burden of injury from the wars in Afghanistan and Iraq. Between 2005 and 2013, the case fatality rate for United States service members injured in Afghanistan decreased by nearly 50 percent, despite an increase in the severity of injury among U.S. troops during the same period of time. But as the war in Afghanistan ends, knowledge and advances in trauma care developed by the Department of Defense (DoD) over the past decade from experiences in Afghanistan and Iraq may be lost. This would have implications for the quality of trauma care both within the DoD and in the civilian setting, where adoption of military advances in trauma care has become increasingly common and necessary to improve the response to multiple civilian casualty events. Intentional steps to codify and harvest the lessons learned within the military's trauma system are needed to ensure a ready military medical force for future combat and to prevent death from survivable injuries in both military and civilian systems. This will require partnership across military and civilian sectors and a sustained commitment from trauma system leaders at all levels to assure that the necessary knowledge and tools are not lost. A National Trauma Care System defines the components of a learning health system necessary to enable continued improvement in trauma care in both the civilian and the military sectors. This report provides recommendations to ensure that lessons learned over the past decade from the military's experiences in Afghanistan and Iraq are sustained and built upon for future combat operations and translated into the U.S. civilian system.

A NATIONAL TRAUMA CARE SYSTEM INTEGRATING MILITARY AND CIVILIAN TRAUMA SYSTEMS TO ACHIEVE ZERO PREVENTABLE DEATHS AFTER INJURY

- Are you looking for Ebook A National Trauma Care System Integrating Military And Civilian Trauma Systems To Achieve Zero Preventable Deaths After Injury? You will be glad to know that right now A National Trauma Care System Integrating Military And Civilian Trauma Systems To Achieve Zero Preventable Deaths After Injury is available on our online library. With our online resources, you can find Applied Numerical Methods With Matlab Solution Manual 3rd Edition or just about any type of ebooks, for any type of product.

Best of all, they are entirely free to find, use and download, so there is no cost or stress at all. A National Trauma Care System Integrating Military And Civilian Trauma Systems To Achieve Zero Preventable Deaths After Injury may not make exciting reading, but Applied Numerical Methods With Matlab Solution Manual 3rd Edition is packed with valuable instructions, information and warnings. We also have many ebooks and user guide is also related with A National Trauma Care System Integrating Military And Civilian Trauma Systems To Achieve Zero Preventable Deaths After Injury and many other ebooks.

We have made it easy for you to find a PDF Ebooks without any digging. And by having access to our ebooks online or by storing it on your computer, you have convenient answers with A National Trauma Care System Integrating Military And Civilian Trauma Systems To Achieve Zero Preventable Deaths After Injury. To get started finding A National Trauma Care System Integrating Military And Civilian Trauma Systems To Achieve Zero Preventable Deaths After Injury, you are right to find our website which has a comprehensive collection of manuals listed.
