Art That Changed the World is an innovative approach to understanding the history of art, from cave painting to the modern day, with pivotal works of art examined in the context of history, culture and the lives of their creators. This invaluable art reference book reveals the creative impulse behind every major art movement, from the Renaissance to Surrealism and abstract to pop art, with a visual timeline to show famous paintings and key events. Turning-point paintings that triggered movements are identified and explained as well as the influences behind the famous artworks such as technical advances, admired techniques of earlier artists, and changes in society. You'll learn why Boudins Beach Scene inspired the impressionist movement and why Monets Grainstacks defined it. Vivid images of artistic masterpieces from each style and a glossary of terms make this an indispensable work of reference.
